Guest  
Bedroom

# Welcome!

Kerry, it was great to talk through your guest bedroom ideas the other day.

I've put together a couple of schemes based on the things we discussed.

Hope you like them!

# Your Brief

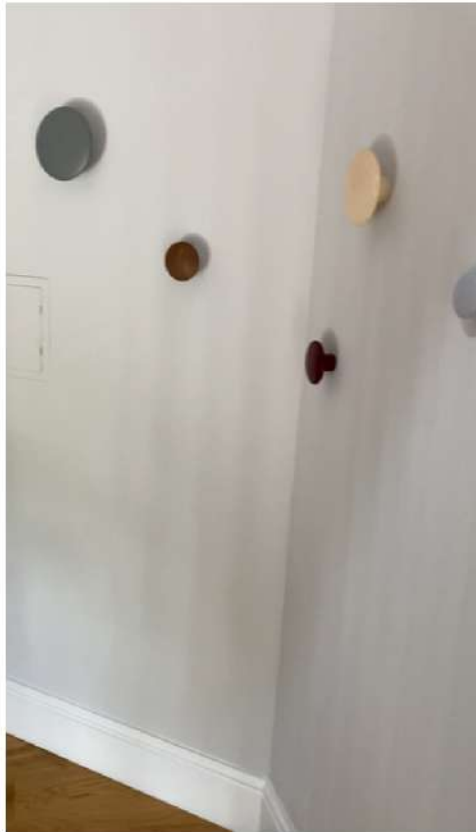

## Guest Bedroom

- You'd like to give your guest bedroom a refresh as you haven't done much with it since you moved in
- You like the grey walls and we felt they tied in to the rest of your house. We discussed adding accent colours like mustard or green. You're not keen on blues
- You're drawn to Scandi style and like classic, modern design and graphic prints
- We discussed giving you 2 x options for the bed: The first option is to work with the existing bed and the second option is to buy a new double bed. The bed needs to be practical for your parents who come to stay
- We also discussed adding a large rug under the bed to break up the wood and add some warmth to the room

# Your Brief

## Guest Bedroom

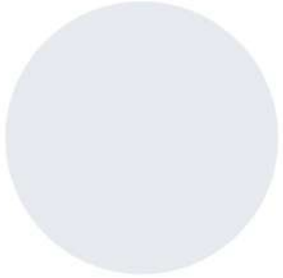

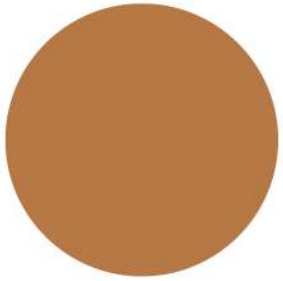

- The wall lights will stay but we can look for new side tables and table lamps
- The standing mirror could also be replaced and we discussed the possibility of having a mirror on the wall to open up the space
- You're happy to take out the drawers under the bed. Instead you'd like to store all the spare bedding in an ottoman / storage chest at the end of the bed. You don't like clutter and prefer clever storage around your house
- You'd like to keep the hooks on the wall and we agreed they're a nice design feature. We discussed the possibility of a ladder against the wall to hang towels/ clothing from
- We talked about adding a picture / pictures above the wall and you mentioned you have a lot of travel pictures you'd like to hang around the house

# Colour Palette + Styling Tips

# Colour Palette

## Guest Bedroom

---

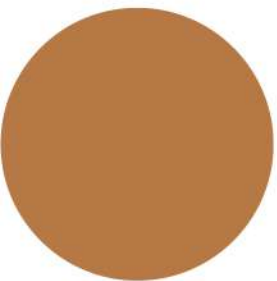

### **Walls, ceiling and skirtings**

Keep existing paint colour

### **Wooden accessories**

Acacia wood

### **Accent colours for accessories**

Mustard Yellow, Green +  
Toffee

# Styling Tips

## Guest Bedroom

---

### Walls to left of bed

- Picture shelf to go above radiator. You could display your framed travel pictures here
- Mirror to go on the wall where the freestanding mirror currently sits

### Bed area - Option 1

- Place large square pillows behind standard pillows to conceal headboard
- Lay the bedspread over the bed end
- Use the baskets on the bench to store spare bedding. You could also move the baskets to the top of the bench to conceal more of the bed end

### Bed area - Option 2

- Use TaskRabbit to remove old bed and install new bed
- An iron bed or an upholstered bed with drawers would work well. This double bed is another good option. This is also a good alternative to the bench

### Walls to the right of the bed

- The ladder can be used to hang guest towels/ clothing. You may need to move a couple of the wall hooks to accommodate it
- Add a large floor plant to add greenery

# Thank You!

Thanks Kerry!

If there's anything you're not sure about please let me know. I'm more than happy to look at alternatives for anything you'd like to change
